Logistics ED1 IPT

February 24, 1999

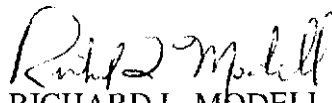

MEMORANDUM FOR: DISTRIBUTION

SUBJECT: Adoption of Commercial ED1 Standards for DOD Logistics Business
Transactions - Integrated Product Team (IPT)

The next meeting of subject IPT will commence at 0800 on March 4, 1999 at the Logistics Management Institute (LMI), McLean, VA. The tentative agenda is provided below (see Web site www.log.edi.migration.hq.dla.mil for administrative details). Attached for your review and comment are draft minutes and actions that resulted from the February 9-10, 1999 meeting. Subject to comment, the IPT Chairman will approve these minutes and actions on March 4, 1999. Point of contact is Mr. George Kingsley, (703) 275.5491, kingsleg@ncr.disa.mil.

Tentative Agenda:

Information Briefings	Decision Topics
<input type="checkbox"/> Implementation Plan Sections (Section Leads)	<input type="checkbox"/> Review/Approve IPT Terms and Definitions
<input type="checkbox"/> ED1 Policy Status	<input type="checkbox"/> Funding Nominations
<ul style="list-style-type: none">• GSA ED1 Information Briefing	
<input type="checkbox"/> Chairman Updates • Actions 1-9-99-01, 1-9-99-02, 1-9-99-03, 1-9-99-04, 1-9-99-09	

RICHARD L. MODELL
Lt Col, USAF
IPT Chairman

DISTRIBUTION:

Director, Joint Chiefs of Staff (JCS-J-4 [LISD])
Director, Deputy Under Secretary of Defense for Acquisition Reform (AR)
Deputy Chief of Staff, U. S. Army (LOIA-IT), (SAIS-IAE), (AMCLG-LA),
(SFAE-PS-P), (Battelle [TP])
Chief of Naval Operations (N41, N4T), (Cdr, Naval Supply Sys Sup Command [ED-12])
Commandant, U. S. Marine Corps (LPS 1)
Deputy Chief of Staff, U. S. Air Force (AF/ILXI), (AFCIC/SYSS), (CAS Office [ILW]),
(ILWR)
Director, Defense Logistics Agency (DLA-CII), (DLA-CIO), (DLSC-I, DC, LCM),
(DLIS-DL), (DAASC-SL), (JTAV), (DLMSO)
Commander, U. S. Transportation Command (TCJ4-LP), (TCJ4-LPD)
Commander, U. S. Special Operations Command (SOAL-LS)
Commandant, U. S. Coast Guard (G-SLS), (Finance Center [SA])
General Services Agency (FCSD), (FCSI)
Director, Defense Finance and Accounting Service (IEC), (DFAS-HQ/A)
Director, Defense Threat Reduction Agency (Logistics)
Director, Federal Aviation Administration (AFZ 500)
Director, National Security Agency (N315)
Director, Defense Security Cooperation Agency (DSCA/IT/DSAMS-PMO), (911D24)
Director, Veterans Administration (Logistics)
Director, National Imagery and Mapping Agency (CSC DO D12)
Director, Defense Commissary Agency (ITBB)
Director, Defense Intelligence Agency (DAL-2)
Director, Defense Information Systems Agency (JEB CD), (DT41), (D422)
Director, Ballistic Missile Defense Organization (POI)
Program Manager, Defense Medical Logistics Standard Support Program Office (DMLSS
West), (JMLSS)
Director, Department of Defense Ballistic Missile Defense Organization (POI)
Joint Interoperability Test Command (JTDB)
U.S. Postal Service (DLIS)
cc:
Director, Assistant Secretary of Defense for Command, Control, Communication, and
Intelligence (ASD)
Deputy Under Secretary of Defense for Logistics (LSM), (MDM), (TP), (MPP&R)
Director, Joint Electronic Commerce Program Office (CTC), (PTI)

Minutes
Adoption of Commercial EDI Standards for DoD Logistics Business Transactions
Integrated Product Team (IPT), February 9-10, 1999

The meeting opened with the Chairman welcoming all and thanking them for their participation in this effort. After introductions, administrative announcements, and a review of the agenda, the meeting activities began. Note: See IPT WEB page at www.log.edi.migration.hq.dla.mil for additional information.

Service and Agency Briefings: As a precursor, the Chairman provided a series of suggested topic areas. Shown below are synopses of briefings.

Service and Agency Briefing Synopses

<i>Service/Agency</i>	<i>IPT Internal Support Organization</i>	<i>Internal Modernization Strategy/Plans</i>	<i>On-Going/Planned ANSI ASC X12 Initiatives</i>	<i>Issues/Concerns</i>
Army	EDI IPT established	Phased implementation through process improvements and business system upgrades	<ul style="list-style-type: none"> - Wholesale Logistics Mod Program (WLMP) - Procurement Automated Data and Document System (PADDS) - TACOM's Direct Vendor Delivery (DVD), and depot/repair program 	<ul style="list-style-type: none"> - Phased Implementation - Resourcing - Minimal interface with commercial sector - ROI
Navy	Existing Organization (Navy Supply Systems Command)	Phased implementation coinciding with JECPO plan	<ul style="list-style-type: none"> - SUP-21 (Reinventing Navy Logistics Business Rules) target 2005 - Supports ANSI ASC X12 for interface with civil sector: <ul style="list-style-type: none"> - Automated Non-Standard Requisitioning System (ANSRS) - Commercial Asset Visibility (CAV II) - Direct Vendor Delivery for Repairables - Internal Mod based on business case analysis 	<ul style="list-style-type: none"> - Migration must include reengineering - Open policy to allow for inclusion of other technology - Phased, measurable, and coordinated plan
Air Force	DRID #48 IPT established	Worked as part of larger picture: <ul style="list-style-type: none"> - GCSS-AF - Logistics migration plans - CIO management board 	<ul style="list-style-type: none"> - Shipping with Federal Express - Paperless contracting - On-going review: <ul style="list-style-type: none"> - Supply - Maintenance - Logistics Information Systems 	<ul style="list-style-type: none"> - Interface with other functional areas - Multiple initiatives - Resources - Emerging EDI standards

Attachment 1

Service and Agency Briefing Synopses (continued)

<i>Service/Agency</i>	<i>IPT Internal Support Organization</i>	<i>Internal Modernization Strategy/Plans</i>	<i>On-Going/Planned ANSI ASC X12 Initiatives</i>	<i>Issues/Concerns</i>
<i>United States Marine Corps (USMC)</i>	Existing Organization (LPS/I&L)	Worked as part of larger picture: - Logistics Information Resource (LOG IR) Plan - Integrated Logistics Capability (ILC)	- Electronic Document Access (EDA) - Navy Electronic Commerce Online (NECO) - Electronic Mall - Smart Cards - Standard Procurements System (SPS)	- Incremental approach (aggressive where feasible) - Should comply with Logistics Business Systems Corporate Strategy - Must streamline business process
<i>Defense Logistics Agency (DLA)</i>	DRID #48 working group being established	Where “EDI commercial standard” is best solution, will be implemented as part of business process initiative, system upgrade/modification	- Pre-Procurement - Financial - Invoicing - Contract management - Cataloging	- Recognize other solutions: - Shared data - CICS-to-CICS - Internet - AIT - DLMS
<i>Transportation Command (TRANSCOM)</i>	Existing Organization (TCJ4-LP)	Will continue as OSD lead for EDI transportation programs	- In-transit visibility efforts - Fielding transportation migration systems - Improving business practices	- Size and scope of effort - Varying degrees of sophistication and capability across spectrum
<i>Defense Security Cooperation Agency (DSCA)</i>	Existing Organizations (DSCA/IT/DSAMS)	Re-engineering and standardizing security cooperation program to a single system that utilizes ANSI ASC X12 EDI standards	- Maintain most legacy systems until replaced – currently modernizing DSAMS/PC - No change to MILDEP legacy systems - Current timeline – FOC 2003	- Can not force change on foreign customers - Must accommodate least sophisticated customer - Will not provide less information - ANSI vice UN/EDIFACT? - Interfacing systems

General Topics:

- IPT voting members – membership agreed that the category previously known as “supporting/voting as required” would be deleted. IPT membership will be in two categories, “voting” or “supporting.” See draft IPT Charter on WEB page for detailed breakout.

Attachment 1

- Synopsis of one-on-one visits – Chairman intends to visit with each of the major IPT participants. The purpose of these visits will be to exchange thoughts and ideas regarding the conduct of the IPT and other areas of mutual interest (open/maintain lines of communication). The Chairman mentioned that he is available to speak with Service and Agency groups or their chain of command at their convenience.
- Minutes of January 20, 1999 meeting approved with minor exceptions. Revised minutes posted on WEB February 12, 1999.
- Civil sector IPT involvement – plans are underway to brief this effort at the April Data Interchange Standards Association (DISA) Electronic Commerce (EC) Conference and at the Second Annual DoD EC Day in June. In addition, a draft brochure was shown for distribution. A suggestion was made that this effort also be briefed at the October CALS Expo.

IPT Charter Approval:

- As a result of input received prior and discussion during the meeting, a final draft Charter was approved. This final draft is posted to the WEB for review and comment by IPT membership (suspense March 1, 1999). The Chairman will incorporate changes and present for signature to the Director, Deputy Under Secretary of Defense (DUSD) for Logistics (L), Logistics Systems Modernization (LSM), and the Director, Joint Electronic Commerce Program Office (JECPO). Additionally, this Charter will be a topic of discussion at the March 5, 1999 IPT update to the Logistics Information Board (LIB). The Chairman encouraged the membership to review the Charter with their LIB members prior to the March 5, 1999 meeting.
- At this point, a discussion ensued that transcended the general intent of the briefing and focused on the scope, purpose, and intent of the Department of Defense Reform Initiative Directive (DRID) #48. Navy, Air Force, and DLA strongly supported the interpretation that the DRID did not limit the Services and Agencies to an envisioned infrastructure based on the American National Standards Institute (ANSI)-chartered Accredited Standards Committee (ASC) X12 commercial standards. They generally support this standard at the enterprise level, but not as a mandate for their internal logistics processes. The Navy stated that it is their intent to move directly to a “shared-data environment” but would continue to evaluate ANSI ASC X12 along with a myriad of other enablers to their business process improvements. This discussion moved to the scope of the Defense Logistics Management System (DLMS). The concern was expressed that DLMS and ANSI ASC X12 are inclusive of each other and do not allow for emerging technologies (see attachment 3, action 1-9-99-08). The DLMS Office (DLMSO) representative challenged this interpretation and stated that DLMS was inclusive of other EDI technologies now and is capable of

Attachment 1

expansion. Once this broader definition of DLMS was explained, the membership concurred that this issue was not as critical as previously thought. The final topic discussed was the definitive “end-state” for the IPT. The consensus of the IPT was that once the implementation plan is approved, the IPT would be disbanded.

Attendees agreed to fully support the establishment of a follow-on organization to oversee the execution of the implementation plan.

Terms and Definitions: The membership agreed that this topic would be ongoing. The Chairman will continue to update the IPT through the WEB and during meetings. The Chairman did exclude the definition of DLMS and asked the briefer to work this “off line” with the membership until final resolution is reached. In addition, a crosswalk will be performed between the Charter, Plan Outline, and Policy to ensure uniformity of definitions. The ultimate goal is to transition this effort to the glossary of terms portion of the final implementation plan.

Implementation Plan Outline: With minor exceptions, the outline presently posted to the WEB was approved as the starting point for writing the plan. The Chairman agreed to assign action group leads for developing and writing the following sections:

- ☐ Part 1 – Introduction
- ☐ Part 2 – DLMS Implementation Plans
 - ☐ New Systems (separate action group)
 - ☐ Legacy Systems (separate action group)
- ☐ Part 3 – Implementation Management Plan
- ☐ Part 4 – Operation Management Plan
- ☐ Appendix A – Operating Concept
- ☐ Appendix B – Architecture

These assignments will require the Services and DLA to identify by name action group leads and support members for each formed group. In addition, the Chairman will name a facilitator for each group.

Logistics EDI Policy: As a result of input received prior and discussion during the meeting, the draft Policy was approved. It will be presented to DUSD(L)(LSM) for formal staffing on February 16. At that time, the updated draft will be posted to the WEB. In addition, the Chairman agreed to determine the preferred method to promulgate this policy.

DUSD(L) Remarks: The DUSD(L) challenged the IPT to generate solutions that sharpen the logistics focus on the warfighter and enable us to accelerate the change process. Do not wait for top down guidance – come up with the good ideas and move forward. Our logistic objective should be our customers’ confidence in the process. The right product, at the right place, at the right cost, at the right time, and inclusive of the right visibility. In regard to the specific outcome of this IPT, he stated that the

implementation should not negatively effect readiness. He went on to mention that the Services and Agencies must commit to implementation or nothing will happen. After a short question and answer period, he thanked the group for the opportunity to share his thoughts with them and wished everyone good luck.

DoD DDI Translator Requirements: This topic was a follow-up to action item 1-20-99-08 (see attachment 3). After a short discussion, the DLA and the Defense Information Systems Agency (DISA) agreed to co-chair an action group to work this issue with the ultimate goal of transitioning their effort to Appendix B. The Chairman agreed to provide a facilitator to this group.

Program/Project Funding Nominations: The IPT approved nomination criteria with minor comments. The Chairman will revise criteria and issue a “data call” for nominations February 12, 1999. The “data call” will be inclusive of available funds by appropriation. Suspense for nominations will be March 1, 1999, with a prioritized list to be provided to the March 4, 1999 meeting for membership approval.

Non-DoD Issue Resolution: The IPT approved the Chairman’s proposal that non-DoD members would follow the same issue resolution process as DoD members. See IPT organizational chart on the WEB.

DLMS/DLSS Enhancements: Due to time constraints, formal briefing was postponed to a later meeting. Handouts were provided and briefing slides will be posted to the WEB.

The Meeting adjourned with the Chairman thanking all for their candid comments and reminding the membership of the next meeting on March 4, 1999.

**Adoption of Commercial EDI Standards for DoD Logistics Business Transactions
Integrated Product Team (IPT) - Action List**

<i>Number</i>	<i>Action/Comments</i>	<i>Suspense</i>	<i>Lead</i>
1-20-99-08	<p>DoD EDI Translator Requirements - Pending appointment of an “action group,” IPT Chairman will begin to define/scope the DoD EDI translator requirement. This issue is inclusive of Corporate/Service/Agency requirements.</p> <p>2/10/99 DLA and DISA agreed to co-chair an Action Group to define and begin the process of requirement determination. Mr. St. Mark will facilitate this action as a sub-task of the Action Group charged with developing Appendix B of the Implementation Plan.</p>	TBD	Chairman pending Action Group
1-20-99-09	<p>IPT Non-DoD Issue Resolution - Develop a procedure, based on the fact that the IPT’s primary focus is on DoD EDI standards, on how non-DoD (GSA, NSA, NASA, etc.) elements will assist in issue resolution.</p>	Complete	Chairman
1-20-99-10	<p>Civil Sector IPT Involvement - Develop a procedure by which civil sector EDI standards organizations can participate, advise, and consult on the IPT’s efforts.</p>	Ongoing	Chairman
1-20-99-11	<p>DLMS/DLSS Enhancements - Mr. Don Egan will prepare a comprehensive list of enhancements that are present in DLMS, but not in DLSS. This list will be provided to the Chairman by 2/5/99 for review and briefed at the 2/9-10/99 meeting. Note: Hard copy of briefing charts provided as handout at 2/9-10/99 meeting. Briefing deferred to later meeting.</p>	Complete	Chairman
1-20-99-12	<p>NASA and USPS - For participation in the 2/9-10/99 meeting, the Chairman will invite NASA, USPS, and DIA to participate in the IPT process.</p>	Complete	Chairman
1-9-99-01	<p>DoD ROI Studies – Research to determine relevant DoD logistics EDI ROI studies completed/ongoing/contemplated and provide results to IPT</p>	3/4/99	Chairman

Attachment 3

**Adoption of Commercial EDI Standards for DoD Logistics Business Transactions
Integrated Product Team (IPT) - Action List**

<i>Number</i>	<i>Action/Comments</i>	<i>Suspense</i>	<i>Lead</i>
1-9-99-02	DoD Logistics priorities – Research to determine the relative priority of EDI migration to commercial standards within DUSD(L).	3/4/99	Chairman
1-9-99-03	Migration Standard Capabilities – Research, compare, contrast capabilities of XML vice ANSI ASC X12, or other available logistics standards, and provide results to IPT.	3/4/99	Chairman
1-9-99-04	IPT E-Mail Address - Establish an IPT “common” e-mail address.	3/4/99	Chairman
1-9-99-05	IPT End-State – Research to determine a definitive “end-state” for EDI IPT.	TBD	Chairman
1-9-99-06	Minutes – Update Jan 20, 1999 minutes to reflect recommended changes and post to WEB as final.	2/12/99	Chairman
1-9-99-07	Similar Efforts – Research to determine if similar efforts are ongoing within DoD and Non DoD Agencies. When applicable, add link to IPT WEB page.	Ongoing	Chairman
1-9-99-08	“Oversight Organization” – In what will become a recommendation of the IPT, conceptualize and propose the “oversight organization” that will serve as the follow-on to this IPT. Major responsibility will be to oversee execution of Implementation Plan.	Ongoing	Chairman
1-9-99-09	IPT Scope – Assess the ramifications of expanding the implementation plan to include other enablers such as AIT, XML, e-mail etc. This action can be accomplished through the re-definition of DLMS. DUSD(L)(LSM) will be briefed on the positives and negatives of this expansion. Results will be presented at the 3/4/99 IPT meeting.	3/4/99	Chairman
1-10-99-01	Other Implementation Plans/Policies – Research to determine other plans, strategies, policies, lessons learned, etc., that should be referenced or tied to this effort.	Ongoing	Chairman
